21. *I am not working, or I am retired. What do I select?*

- a. CDR recognizes that many RDs and DTRs maintain the credential despite having pursued careers in other fields or having reached retirement. Choosing from the “Core Essential Practice Competencies” 1-9 may help to create a Plan that is more general in nature. The scope and depth of your Plan is a personal decision and is reflective of where you are at in your career.

22. *I am a new Practitioner; how do I create a plan?*

- a. CDR recommends creating a general Plan which need not relate to “role specific” areas of practice. Optionally choosing from the “Core Essential Practice Competencies” 1-9 may help you accomplish learning goals that apply to all credentialed practitioners regardless of role, area of practice, or setting. As you become more specialized, you may optionally update your Plan with “Functional Essential Practice Competencies” 10-14. The scope and depth of your Plan is a personal decision and is reflective of where you are at in your career and where you see it leading.

23. *If I have questions regarding my plan who should I contact?*

- a. Please put your questions in writing and email CDR@eatright.org
